...And INTRODUCING SECRETIA COLLINS as HERSELF

Rumored to be the test tube offspring of a genetic experiment between the two Joans (that's Crawford and Collins), Secretia Collins was raised by her surrogate mother in Podunk, Wisconsin. At the age of eight, little Secretia exhibited a penchant for Nolan Miller gowns and previewed her Vegas-style, one-woman topless revue much to the chagrin of her third grade class. After a brief stint on *The Jerry Springer Show* on an episode entitled “You @!#*ing Whore, You Stole My Man”, Secretia moved to Hollywood where she appeared in a string of pornos until landing the lead role in *Succubus*. Currently, Secretia can be seen wandering Hollywood Boulevard with her cardboard sign, *Will Work For Booze*. (For more on Secretia Collins, please visit www.succubusthemovie.com)
